

50+ BEST-IN-CLASS FEATURES

ATLAS™

BEST-IN-CLASS COMES STANDARD.

FROM AIRSTREAM® + MERCEDES-BENZ®

“INSPIRED BY AN ICON”

If there's one thing that ties Airstream and Mercedes-Benz together, it's a relentless pursuit of the best. After leading the industry with the Interstate, the #1-selling Class B Diesel Touring Coach for six years in a row, we were inspired to go even further.

Enter the all-new Atlas.

Over 50 best-in-class features come standard in every Atlas, from the Quietstream™ ductless air conditioning to the spa-like shower with teak inlays to the full Murphy suite that features a Froli® ergonomic bed system. This Class B+ Touring Coach boasts all the luxurious touches you'd expect, and gives you even more room to enjoy them.

If you want to experience the highest levels of comfort and sophistication when traveling on the open road, step inside the Airstream Atlas.

ATLAS™

DESIGN

Airstream's world-renowned reputation for quality and engineering is apparent in all aspects of the Atlas' design, from the exquisite exterior styling to the artful craftsmanship of the interior.

Durable Flooring

Carpeted flooring in touring coaches wears down quickly. The marine-grade luxury woven synthetic flooring you'll find in the Atlas stays fresh and looking new, even after miles and miles of use. The pet-friendly, easy-to-clean material floats on an inch-and-a-half of insulated flooring that's not only the best in its class, but also the quietest.

Samsung® Countertops

Leaving home doesn't have to mean leaving all its comforts behind. That's the belief behind the Atlas' high-end interior amenities. Each Atlas comes with best-in-class solid surface custom countertops by Samsung®—a name already trusted for quality electronics, and now also in countertops. And to match the countertops, the Atlas also comes with two solid, twist-lock pedestal tables that can be hidden away when they aren't needed.

High-quality Cabinets

The cabinets in the Airstream Atlas are designed to stand the test of time. Crafted with high-gloss laminate, they lend a sophisticated appearance to the interior that's reminiscent of a private jet or a yacht. The framing uses stamped aluminum rather than the stapled and glued wooden frames used in other coaches. Soft-close brushed nickel struts allow the doors to close smoothly and quietly, and the outside latches are flush for a clean look.*

**Optional Angel White Textured Locker Doors Shown*

Luxurious Living Quarters

The Atlas is designed to ensure relaxing days followed by peaceful nights, and it's all thanks to a power slide-out that expands the living space and makes room for the Murphy suite. Enjoy plenty of space to kick back on the comfortable Villa® power sofa, and then convert it into the integrated bed when it's time to say good night. And in the morning, it's easy to convert it back and tidy up.

Ergonomic Sleep System

The Atlas' Murphy bed is outfitted with a Froli® Ergonomic Sleep System that ensures you start each day refreshed and well-rested. The interlocking springs provide a supportive sleep surface that's supremely comfortable. After all, what's more luxurious than a great night's sleep?

Interior Décor Options

In the Atlas, you'll find best-in-class design in every detail. Each of the two available décor palettes is appointed with beautifully coordinated colors, finishes, and fabrics. In both palettes, you're offered the choice between Black or Moon Ultraleather® seating surfaces. Select the combinations that appeal to your taste for a truly personalized feel inside your Atlas.

Exterior Design and Finish

When Airstream and Mercedes-Benz come together, you know you'll get a touring coach that exceeds your expectations – and the Atlas doesn't disappoint. From the beautiful body lines and sleek curved walls to the chrome trim package and seamless transitions, the Atlas exudes elegance and luxury from any angle. A hidden power entry step emerges to welcome you aboard, then recesses smoothly back into the Atlas' body. Gleaming Alcoa aluminum wheels and Mercedes-Benz taillights and badging round out the touring coach's sophisticated look.

PERFORMANCE

While the interior of the Atlas is all Airstream, the chassis and engine are all Mercedes-Benz, and our belief in “the best or nothing” is evident throughout. Or in this case, maybe it should be “best-in-class or nothing.”

Six-Cylinder Mercedes-Benz Diesel

What good is best-in-class beauty if it's missing best-in-class power? The Airstream Atlas leads the way with a standard Mercedes-Benz 5-speed, 3.0 liter, 188 horsepower V6 turbo engine. Thanks to it 325 lbs. of torque, you'll experience superior performance under any conditions. Fast acceleration, unbelievable torque, and impressive fuel mileage – on top of legendary reliability. So even when your map is marked for the most remote locations, you'll trust the Atlas to take you there and back again.

PERFORMANCE

Air Ride Suspension

Ride on air. This suspension system

automatically adjusts as you drive and improves the Atlas' already superb handling and stability.

Not only does it provide a higher level of comfort for passengers, it's easier on your tires and brakes, too, so you'll enjoy mile after mile of smooth rides with less maintenance as you float off to new destinations.

Multi-function Steering Wheel

You won't want to take your hands off the Atlas' luxuriously plush perforated leather-wrapped steering wheel.

And thanks to its multi-function controls, you can operate your Bluetooth® phone and dash monitor, plus adjust your stereo settings, without ever having to.

Diesel Generator

Stay off the grid for longer thanks to the Atlas' 3.2kw Onan® Quiet Diesel Generator. Its design minimizes noise emission for a quiet, peaceful experience each time you use it. And, you can operate the generator through the Atlas' best-in-class multiplex touchpad electronic control system.

Quietstream™ Air Conditioning

No matter where your travels take you, the Atlas' Quietstream™ Climate Control System helps keep you cool. Its integrated venting blends seamlessly with the Atlas' sleek interior design aesthetic. And the only thing you'll notice when it's on is how comfortable you feel.

PERFORMANCE

Premium Chassis

Built on a legendary Mercedes-Benz Sprinter 3500 cut-away chassis, the Atlas offers superior on-road dynamics. On every trip, you'll experience incredible handling and better lane control. Heavy-duty shocks, springs, stabilizer bars, and brakes go the extra mile to ensure every journey is smooth, safe, and comfortable.

ATLAS™

SAFETY

Safety shouldn't be considered a luxury. That's why,
in the Atlas, advanced safety systems are standard –
and many are best-in-class.

Rear and Side View Camera

While you're likely focused on what's around the next bend, the Atlas makes it easy to see what's behind you, too. A rear vision camera, which is nighttime-enhanced, displays on a panel where the rearview mirror is normally located. The panel features directional lines to make backing up even easier. Side-camera displays appear as well, so you get an even wider view of your surroundings.

Additional safety features:

- Blind spot assist
- High beam assist
- Lane keeping assist
- Road hazard kit and flashlight
- First-aid safety kit
- Bi-xenon headlights
- Headlight washer system
- Fog Lamps

SAFETY

Airbags and Safety System

The Airstream Atlas isn't just one of the safest vehicles on the road – it's the very safest in its class. In addition to the dual front airbags, driver- and passenger-side window airbags greatly reduce the risk of head and facial injuries. And thorax airbags* provide added protection in the event of a side impact. So you'll feel confident in reaching your location safe and sound.

*Late availability**

Collision Prevention

Mercedes-Benz has always believed the best way to survive an accident is by avoiding one in the first place. With that in mind, the Atlas' collision prevention assist uses radar to constantly monitor closing speeds between your vehicle and the others around it. If the system determines a collision is likely, it will calculate and supplement the necessary brake force to slow you down.

SIDE CURTAIN AIRBAGS

COLLISION PREVENTION ASSIST

FRONT AIRBAGS

SIDE & REARVIEW CAMERA ASSIST

FRONT AIRBAGS

AMENITIES

Sometimes it's the details that matter most. That's why we haven't overlooked a thing. The Atlas is packed with premium features that anticipate every need. They're amenities that you'll appreciate if you wish to truly travel well. And you'll have more room to enjoy them than ever before.

AMENITIES

Aerodynamic Power Awning

With the push of a button, the Atlas' best-in-class full-length power awning stretches out to create a comfortable, shady spot where you can lounge. Its integrated appearance makes it as beautiful as it is functional, and three support arms hold it sturdily in place. Take in a scenic sunset, then switch on the awning's LED lighting – its dimmer provides you with just the right level of evening glow. A seismic sensor auto-retracts the awning if the wind kicks up and threatens its stability.

FUSION® Infotainment System

The Atlas' 8" in-dash touchscreen is the easy-to-use FUSION® Infotainment system. The system is Wi-Fi Internet capable, so you can surf the web while cruising the road. Its Bluetooth® technology lets you stream music, and its Garmin navigation system gives you lane guidance, terrain navigation, 3D maps, and access to a directory of RV-related services. Plus, it's Sirius XM®-ready and offers hands-free calling. The system can also be controlled remotely. So no matter how far away from civilization you travel, you're just a touch away from all of its comforts and conveniences.

Tilting Power Shades

Oceanair tilting power shades add a new degree of comfort and ease of use to the Atlas. Cruise through the countryside in privacy and relaxation, as the UV-resistant sheer fabric and blinds subtly diffuse or block out light at your discretion. All shades are independently controlled through the on-board multiplex control system.

Luxury Features

Mercedes-Benz has a reputation for providing drivers with as much luxury and comfort as possible. The Atlas incorporates numerous Mercedes-Benz features that let you keep your focus on the joys of the road and not the tasks that come with being behind the wheel. For example, the Atlas features automatic rain-sensing windshield wipers as well as light-sensing headlights.

AMENITIES

State-of-the-Art Electronics

When it comes to keeping passengers entertained, each Atlas comes with a best-in-class Power Entertainment System Samsung® 40-inch HD Smart TV set with built-in Wi-Fi access, a full web browser, smart apps, social media, the ability to access media/programs from your mobile device, and more. The Smart TV includes a Bluetooth®-enabled Samsung Soundbar with built-in subwoofers and Clear Voice technology. The Atlas also sports a high definition, in-motion TV antenna. And the new multiplex control system puts operation of the Atlas' lighting, technology, and more right at your fingertips.

Additional Interior Best-In-Class Amenities:

- Aluminum ceiling and trim
- Magic suede on walls and window boxes
- Adjustable LED lighting
- Built-in cupholders
- Pre-wired for satellite system
- Pre-wired with HDMI cables
- Heated driver and passenger seats
- LED undercarriage lighting
- Heated windshield
- Custom floor mats
- Locking glove box
- Concealed storage compartment in dash
- Overhead map lights
- Overhead sunglasses compartment
- Driver & passenger door entry lighting
- USB charging ports
- Cockpit visor vanity mirrors
- Energy Management System
- Power Stabilizer jacks
- Single-remote Keyless entry
