

50+ BEST-IN-CLASS FEATURES

INTERSTATE

NINETEEN

BEST-IN-CLASS COMES STANDARD.

FROM AIRSTREAM® + MERCEDES-BENZ®

“ROLL WITH THE BEST®”

It's a term we like to use when referring to our Interstate touring coaches. And there's a very good reason why.

It's because when you select the Airstream Interstate Nineteen, you aren't choosing a vehicle where best-in-class requires an upgrade. It isn't an option you'll pay extra for. It's standard.

The fact is, there are over 50 best-in-class features that come standard in every Interstate Nineteen. Competing coaches either don't include these features or offer a sub-standard version.

For the kind of comfort and sophistication you deserve when traveling on the open road, you won't find a touring coach that provides the kind of amenities that come standard on every Airstream Interstate Nineteen.

INTERSTATE NINETEEN

DESIGN

Airstream's world-renowned reputation for quality and engineering goes into all aspects of the Interstate Nineteen's design, from the exquisite exterior styling to the artful craftsmanship of the Interstate Nineteen's interior.

🔍 Take a closer look at the design.

Durable Flooring

Carpeted flooring in touring coaches wears down quickly. The Interstate Nineteen's marine-grade plank-style flooring will stay fresh and looking new, even after miles and miles of use. The pet-friendly, easy-to-clean material is also floating on an inch and a half of insulated flooring that's not only best-in-class but also the quietest.

 *Luxury is in the details. Find out more.*

Corian® Countertops

Just because you're leaving home doesn't mean you have to leave comfort behind. That's the whole belief behind the interior amenities of the Airstream Interstate Nineteen. Each Interstate touring coach comes with best-in-class Corian® countertops and backsplashes. To match the countertops, each Interstate also comes with Corian® adjustable swivel table that can be hidden away when not needed.

High-quality Cabinets

The cabinets in the Airstream Interstate Nineteen are designed and built to stand the test of time. Handcrafted from fine wood imported from Italy, the interior has the look of a private jet. The laminate will ensure they'll never fade. The framing uses stamped aluminum rather than the stapled and glued wooden frames used in other coaches. Cabinets are also carpet-lined to provide the cabin with a dampening sound barrier. Cabinet struts are solid brushed nickel, and outside latches are flush mounted to provide your cabin with a smooth, sleek interior.

[Explore more design choices.](#)

Luxurious Ultraleather™ Seating

Made with durable, luxurious Ultraleather™, they're stain-resistant and easy to clean. Both the driver's and passenger seats are heated with three settings and offer best-in-class memory foam, so you'll sink right in.

Power Window Shades

Remote-controlled power shades add a new degree of comfort and ease of use to the Interstate line. Cruise through the countryside in privacy and relaxation, as the day shade also blocks UV rays and reduces heat from outside. All shades are independently controlled through a master remote. They're water-repellant, easy to clean, and meet all Federal Vehicle Standards.

Beach Wood

Columbian Walnut

Interior Décor Options

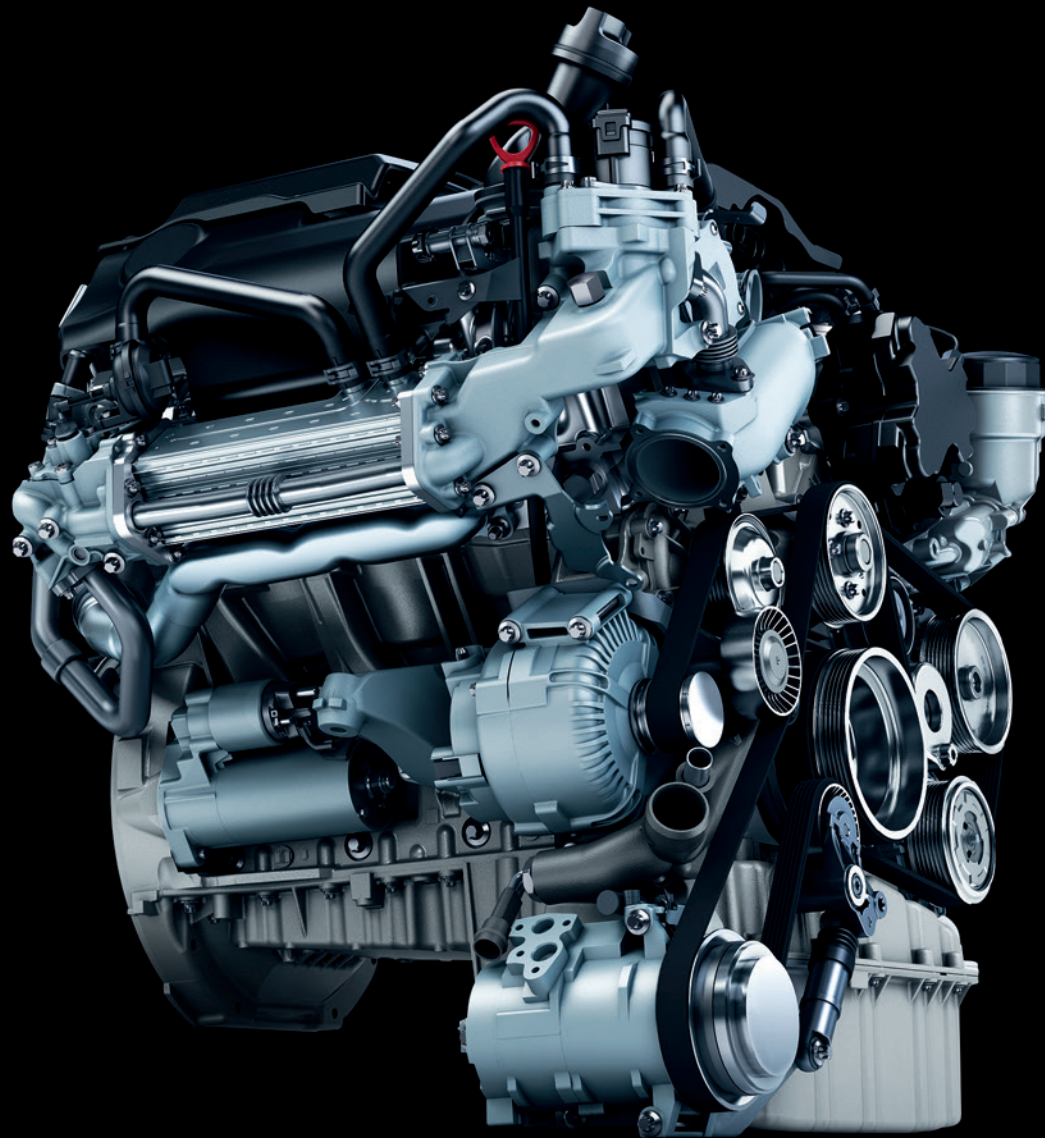

In the Interstate Nineteen, you'll notice best-in-class design in every detail. Each of the four available palettes is appointed with beautifully coordinated colors, finishes, and fabrics. Select the look that appeals to your tastes for a truly personalized feel inside your Interstate Nineteen.

**Each decor option is also available with Black Ultraleather® seating surfaces.*

INTERSTATE NINETEEN

PERFORMANCE

While the interior of the Interstate Nineteen is all Airstream, the chassis and engine are all Mercedes-Benz®, and our belief in “the best or nothing” is evident throughout. Or in this case, maybe it should be “best-in-class or nothing.”

Six-Cylinder Mercedes Diesel

What good is best-in-class beauty if it's missing best-in-class power? The Airstream Interstate Nineteen leads the way with a standard Mercedes 5-speed, 3.0 liter, 188 horsepower V6 turbo engine. With 325 ft. lbs. of torque, you'll experience superior performance under any conditions. Fast acceleration, unbelievable torque, and impressive fuel mileage – on top of legendary reliability. So even when your adventures take you to the most remote locations, you'll trust the Interstate Nineteen to take you there and back again.

Four-wheel Drive

Activate this optional system with the push of a button. Experience added stability and control with this Mercedes-Benz® system installed, even through challenging road and weather conditions, as the system combines the Load-Adaptive Electronic Stability Program (ESP®) and Electronic Traction System (4-ETS). Engage the low setting to generate more torque at lower speeds, and the high setting to gain traction on slippery roads.

Multi-function Steering Wheel

You won't want to take your hands off the Interstate Nineteen's luxuriously plush perforated leather-wrapped steering wheel. And thanks to its multi-function controls, you can operate your Bluetooth® phone and dash monitor, plus adjust your stereo settings, without ever having to.

INTERSTATE NINETEEN

SAFETY

Safety shouldn't be considered a luxury. That's why
advanced safety systems are standard throughout the
Interstate Nineteen, including many which are best-in-class.

Rear and Side View Camera

While you're likely focused on what's around the next bend, the Interstate Nineteen makes it easy to see what's behind you, too. A rear vision camera, which is nighttime-enhanced, displays on a panel where the rearview mirror is normally located and features directional lines to make backing up even easier.

Side-camera displays appear in the same monitor, so you get an even wider view of your surroundings.

Parking Assist

While the Interstate Nineteen is surprisingly nimble and maneuverable for its size, parking can present a challenge at times. That's why it's equipped with Parktronic front and rear sensors from Mercedes-Benz. Visual and auditory warnings direct your attention to parking hazards, so you can enjoy the Interstate Nineteen's spacious interior without worrying about dents or dings.

Additional safety features:

- Blind spot assist
- High beam assist
- Lane keeping assist
- Road hazard kit and flashlight
- First-aid safety kit
- Bi-xenon headlights
- Headlight washer system
- LATCH child seat tethers

Airbags and Safety System

road, it's the very safest in its class. In addition to the dual front airbags, driver and passenger side window airbags greatly reduce the risk of head and facial injuries. And thorax airbags provide added protection in the event of a side impact. So you'll feel confident in reaching your location safe and sound.

Collision Prevention

Mercedes has always believed the best way to survive an accident is by avoiding one in the first place. With that in mind, the Interstate's collision prevention assist uses radar to constantly monitor closing speeds between your vehicle and the others around it. If the system determines a collision is likely, it will calculate and supplement the necessary brake force to slow you down.

INTERSTATE NINETEEN

AMENITIES

Sometimes it's the details that matter most. That's why we haven't overlooked a thing. The Interstate Nineteen is packed with premium features that anticipate every need. They're amenities that will be appreciated most by those who wish to truly travel well.

AMENITIES

**Interstate EXT awning shown.
Power awning comes standard
on the Interstate Nineteen as well.*

Aerodynamic Power Awning

With the push of a button, the Interstate Nineteen's best-in-class 15' power awning stretches out to create a comfortable, shady spot where you can lounge. An updated, more integrated appearance makes it as beautiful as it is functional, and three support arms hold it sturdily in place. Take in a scenic sunset, then switch on the awning's LED lighting. Its dimmer provides you with just the right level of evening glow. A seismic sensor auto-retracts the awning if the wind kicks up and threatens its stability. And when you're underway, you'll appreciate its enhanced aerodynamics — exclusive to Airstream.

Multi-vision Monitor

Other travel coaches require you to toggle between views on the in-dash monitor. In the Interstate Nineteen, your best-in-class touchscreen display grants separate views, simultaneously. GPS navigation is available on-screen at the same time as your radio controls. All the information you need, right in front of you.

FUSION® Infotainment System

Incorporated into the Interstate's 8" in-dash touchscreen is the easy-to-use FUSION® Infotainment system. The system is Wi-Fi Internet capable, so you can surf the web while cruising the road. Its Bluetooth® technology lets you stream music, and its Garmin navigation system gives you lane guidance, terrain navigation, 3D maps, and access to a directory of RV-related services. Plus, it's Sirius XM® ready and offers hands-free calling. The system can also be controlled remotely. So no matter how far away from civilization you travel, you're just a touch away from all of its comforts and conveniences.

Luxury Features

With Mercedes being known as an automotive manufacturer that provides its drivers with as much luxury and comfort as possible, the Interstate incorporates numerous Mercedes features that let you keep your focus on the joys of the road and not the tasks that come with being behind the wheel. For example, the Interstate features rain-sensing windshield wipers as well as rain and light sensor headlights.

State-of-the-Art Electronics

When it comes to keeping passengers entertained, each Interstate Nineteen comes with your choice of a 22" or 32" Samsung® HDTV, with a 4-channel HDMI switcher and pre-wire for your Blu-Ray player. The vehicle also sports an in-motion TV antenna, which can be operated via remote. And the multiplex control system puts operation of the Interstate's lighting, technology, and more right at your fingertips.

Additional Interior Best-In-Class Amenities:

- Aluminum ceiling and trim
- Magic Suede® on walls and window boxes
- Adjustable LED lighting
- Built-in cupholders
- Pre-wired for satellite system
- Pre-wired with HDMI cables
- Heated driver and passenger seats
- LED undercarriage lighting
- Heated windshield
- Custom floor mats
- Locking glove box
- Concealed storage compartment in dash
- Overhead map lights
- Overhead sunglasses compartment
- Driver & passenger door entry lighting
- USB charging ports
- Cockpit visor vanity mirrors
- Energy Management System

“ROLL WITH THE BEST®”

The Interstate touring coach matches the precision engineering of Mercedes-Benz with the design sensibilities of Airstream. Every inch is designed with comfort, style, function, and luxury in mind.

With more than 50 best-in-class features, it's the finest way to travel, whether you're using it for a long-term adventure or just want to enjoy a weekend road trip surrounded by these fine amenities.

Experience the Airstream Interstate in person. It's available at select dealers – travel to **airstream.com** to find the Interstate dealer nearest you.
