

WELCOME TO CAMP AIRSTREAM: YELLOWSTONE AT REDROCK RV PARK!

NESTLED IN THE HEART OF THE ROCKY MOUNTAINS, the Yellowstone National Park and Island Park area offer an unparalleled blend of natural beauty, geological wonders, and outdoor adventures. As an Airstream owner, you're perfectly equipped to explore these stunning landscapes, from the volcanic marvels of Yellowstone to the tranquil charm of Island Park.

CAMP AIRSTREAM: YELLOWSTONE puts you on the doorstep of one of the most remarkable regions in North America. Whether it's witnessing geysers erupt, hiking through pristine wilderness, or casting a line in world-class fishing waters, this destination will produce life-long memories.

ESTABLISHED IN 1872 AS THE WORLD'S FIRST NATIONAL PARK, Yellowstone is a treasure trove of geothermal features, wildlife and breathtaking scenery. The park sits atop a massive supervolcano, giving rise to its famous geysers, hot springs, and bubbling mud pots. Old Faithful, the Grand Canyon of Yellowstone, and the vibrant Grand Prismatic Spring are just a few must-see attractions.

ISLAND PARK, JUST 30 MINUTES FROM YELLOWSTONE'S WEST ENTRANCE, is a serene gateway to the park's grandeur. Known for its lush meadows, dense pine forests, and the largest volcanic caldera in North America, Island Park offers a peaceful retreat with plenty of activities. From fly-fishing on Henry's Fork to exploring Harriman State Park, there's something breathtaking for everyone.

10 FASCINATING FACTS ABOUT YELLOWSTONE AND ISLAND PARK:

- 1 FIRST NATIONAL PARK IN THE WORLD** – Yellowstone was designated the first national park in 1872, pioneering the global movement to protect natural wonders.
- 2 SUPERVOLCANO BENEATH YOUR FEET** – Yellowstone’s supervolcano is one of the largest active volcanic systems on Earth and is responsible for the park’s geothermal activity.
- 3 OLD FAITHFUL’S RELIABILITY** – Old Faithful erupts roughly every 90 minutes, shooting water up to 180 feet into the air.
- 4 WORLD’S GEYSER CAPITAL** – Yellowstone is home to over 500 geysers—more than half of all geysers on the planet.
- 5 GRAND PRISMATIC SPRING’S RAINBOW HUES** – The largest hot spring in the U.S., Grand Prismatic Spring, dazzles with vivid colors created by heat-loving bacteria.

- 6 YELLOWSTONE LAKE’S FROZEN DEPTHS** – Despite geothermal activity, Yellowstone Lake freezes over in winter, creating a surreal landscape.
- 7 ISLAND PARK’S WILDLIFE** – Island Park is home to grizzly bears, wolves, moose, elk, and bald eagles. Trumpeter swans, one of the rarest bird species in North America, nest in the area.
- 8 BIG SPRINGS’ CRYSTAL WATERS** – Big Springs in Island Park produces 120 million gallons of water daily, feeding the Henry’s Fork River. The water is so clear you can watch fish swimming several feet below the surface.
- 9 MESA FALLS’ UNTAMED BEAUTY** – Upper Mesa Falls stands 114 feet tall, the size of a 10-story building. Unlike most waterfalls, it has never been dammed, so it remains completely natural.
- 10 ISLAND PARK CALDERA’S VASTNESS** – The Island Park Caldera, formed by a massive eruption 2.1 million years ago, is larger than the Yellowstone Caldera.

From the geothermal wonders of Yellowstone to the peaceful escapes of Island Park, this region is a paradise for Airstream adventurers. At Camp Airstream: Yellowstone, you’ll enjoy the camaraderie of fellow enthusiasts while exploring some of the most iconic landscapes in the world. Whether you’re marveling at geysers, hiking through pine-scented forests, or relaxing by a mountain stream, your journey promises to be one for the books.
